

Jane - Owner June Capital Chemist

I started with Capital Chemist Group straight from University as an intern in 2001 when I was offered a job in Wagga Wagga. I then worked my way up and became the manager of both Turvey Tops and Tolland pharmacies where I gained a whole heap of experience over 3.5 fulfilling years.

At just 25 years old, I was offered to buy June Capital Chemist... It was in my grand plan, but not this early I thought. I was given 3 days to drive to June, check out the store and make my decision. It was then in 2004 that I realised my dream a hell of a lot earlier than expected and backed by the senior partners, I jumped in the deep end and bought June Capital Chemist.

My "Let's give it a go" attitude paid off, and I am still here today, 14 years later!

One of the standout moments for me during my time with Capital Chemist Group is in 2015 when we supported the Cancer Assistance Group for Breast Cancer. Having my best friend and mother in law diagnosed and losing my grandmother to breast cancer, this was a very special cause to me. So much so, I died my hair pink and raised over \$5,000. The best part (other than realising I loved my hair pink) was that the funds raised stayed local, and we feel as though our part in the donation really made an impact.

Being in rural NSW is a great place to be, the relationships with our surrounding pharmacies and the community is extremely rewarding.

I love working for Capital Chemist Group because whilst we're a relatively big group, we think small and really focus on helping each other to make the best decisions with our communities in mind. It's great to have a whole extended team to bounce ideas off and share trial and error experiences.

At the end of the day we all have our own quirks, but we are in it together.
